CorePack™ FLY

Airport Checkpoint Friendly Notebook Messenger Bag

Fly Through Airport Security

Flyin' high isn't easy, but with new CorePack Fly, checkpoints are a breeze! While security guidelines grow, so does the stress of travel. So for our terminal-hopping friends, we carefully studied the TSA's checkpoint guidelines and made thoughtful adjustments with easing the stress of airport security in mind. Now, instead of removing your laptop at every checkpoint, simply lay CorePack Fly on security conveyor belts split in two, via cool new "hinged" design. Enjoy one less thing to worry about, knowing your laptop is safely padded and put away, yet ready for inspection!
